B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of reserves and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods for direct business.

Subsequent events have been considered for these statutory financial statements through first quarter 2023. There were no events occurring subsequent to the end of the quarter that merited recognition or disclosure in these statements.

NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination

NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

Reserves for unpaid losses and LAE, net of reinsurance recoverables were \$90 thousand and \$98 thousand at March 31, 2023 and December 31, 2022 respectively. Unpaid losses and LAE are based on claims adjusters' estimates of the cost of settlement plus an estimate for losses incurred but not reported (IBNR) based upon historical experience, industry loss experience and management 's estimates which are reviewed by an external actuarial firm. Claim reserves are continually reviewed and modified to reflect changes in status of individual claim costs and severity as new information becomes available. Current year changes in estimates of the cost of prior year loss and loss adjustment expenses (LAE) affect the current year Statement of Income as any resulting adjustments are charged to operations in the period in which they are determined. Increases in those estimates increase current year expense and are referred to as unfavorable development or prior year reserve redundancies.

Reserves as of December 31, 2022 were \$98 thousand. As of March 31, 2023, \$49 thousand has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$39 thousand as a result of re-estimation of unpaid claims and claim adjustment expenses principally on the homeowners line of business. Therefore, there has been a \$10 thousand favorable prior-year development since December 31, 2022 to March 31, 2023.

The Company has no retrospectively rated policies and no additional premiums or return premiums have been accrued as a result of prior-year effects.
